ABOUT ME

Civil Engineer (GPA 3.86) with strong focus in Sustainable Development and Environmental Engineering. Experienced in climate-resilient infrastructure, disaster risk reduction, and international cooperation through SDG-aligned initiatives including Hult Prize, CREARE, Global Youth Climate Summit, Hiroshima-ICAN Academy, OMLAS 100-Country Summit. Skilled in GIS, hydrology, surveying, concrete and soil analysis, structural design, and eco-friendly infrastructure solutions. Demonstrated leadership in project management, mentoring, and interdisciplinary collaboration. Committed to designing inclusive, resilient, and globally cooperative solutions to complex environmental and urban development challenges.

EDUCATION AND TRAINING

2021 – 2025 Gaindakot, Nepal

BACHELOR OF CIVIL ENGINEERING Oxford College of Engineering and Management

Dean's List Award 2026

Website www.oxfordcollege.edu.np | **Field of study** Engineering, manufacturing and construction | **Final grade** 3.86

2018 – 2020 Gaindakot, Nepal

NEB SCIENCE Oxford Secondary School

Bio Science Faculty topper in college.

Website www.oxfordcollege.edu.np | **Field of study** Science | **Final grade** 3.73 A+

LANGUAGE SKILLS

Mother tongue(s): **NEPALI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

AutoCad 2D -3D | ETABS | Microsoft | CANVA | Indesign | Survey equipment(GPS, Level, Theodolite & Total station) | Manufacture and experimentation of concrete | Soil Testing | C,C,C++ | SketchUP (3D modelling) | Data collection, analysis and reporting | Other skills: Data-Science, GIS and Remote Sensing, Math and Statistic | Environmental Impact Assessment (EIA)

PUBLICATIONS

2025

[**The OCEM JOURNAL OF MANAGEMENT, TECHNOLOGY & SOCIAL SCIENCES Vol. 4\(1\)**](#)

- Eco-friendly Paver Block: Comparative Study By Composition Review
- Main author.

Samriddhi Sharma Maraseni

● PROJECTS

Waste to Walkways: Circular economy based Paver block for Urban Sustainability

- Led the design and evaluation of “Waste to Walkways,” producing circular economy-based paver blocks from urban waste.
- Optimized mix design for compressive strength and durability while reducing landfill burden and promoting sustainable urban infrastructure.
- Developed scalable, low-carbon urban paving solutions aligned with circular economy and sustainability goals.

Eco-friendly Paver Block: Comparative Study By Composition Review

- Evaluated multiple paver block compositions to determine optimal material performance and environmental benefits.
- Research informed climate-resilient, resource-efficient urban infrastructure strategies aligned with circular economy principles.

Surveying and levelling practical

- Conducted distance and angle measurements, differential leveling, contour mapping, and prepared survey plans for site evaluation.
- Generated precise site data enabling informed urban design decisions and disaster-resilient infrastructure placement.

Analysis of structure

- Assessed load-bearing capacity of beams and slabs, studied structural response under varying loads, and interpreted results for design compliance.
- Provided data-driven recommendations for safe and efficient structural design supporting sustainable construction.

Fluid Mechanics, Hydrology, and Hydraulics Applications

- Analyzed fluid flow in pipelines and open channels, optimizing efficiency for sustainable urban water management.
- Conducted hydrological modeling of rainfall-runoff processes and watershed behavior to inform flood-resilient infrastructure planning.
- Evaluated hydraulic systems for urban drainage and water distribution, integrating climate resilience and resource efficiency principles.

Concrete analysis

- Conducted laboratory testing including compressive strength, slump test, and flexural strength; optimized mix design with supplementary cementitious materials.
- Identified optimal mixes improving material efficiency and durability, supporting sustainable construction practices.

Soil analysis

- Performed laboratory and field testing including compaction, Atterberg limits, permeability, and classification of soils.
- Determined soil suitability for foundations and urban projects, contributing to disaster-resilient infrastructure planning.

Engineering Geology Site Work

- Conducted site investigations and geological assessments.
- Evaluated soil and rock properties to inform foundation design, slope stability, and infrastructure planning.

● COURSES CERTIFICATION

2026

Diploma – Structural Engineering and Construction Site Safety

- Alison Online Learning Platform
- Completed comprehensive training in structural engineering principles, construction site safety protocols, and risk management practices.
- Gained expertise in design review, structural analysis, and implementation of safety standards on construction sites.
- Applied knowledge to ensure compliance with safety regulations and sustainable construction practices.

2026

Introduction to Geographic Information System (GIS)

- Completed foundational training in GIS concepts, spatial data management, and geospatial analysis.
- Learned to visualize, analyze, and interpret geographic data for applications in urban planning, environmental monitoring, and disaster risk management.
- Applied skills to mapping infrastructure, land use, and environmental features in case studies.

2025

Aspire Leaders Programme

- Aspire Institute (Harvard-founded)
- Trained in adaptive leadership, social impact strategy, evidence-based decision-making, and strategic networking.
- Applied leadership skills to SDG-aligned initiatives and youth empowerment projects.

2025

John Galt School

- Recognized as one of the Top Students for excellence in academics, leadership, and critical thinking.
- Developed competencies in independent thinking, principled decision-making, and value-driven leadership.

2024

Green Skills & Social Accountability

- Completed a specialized course on climate change, sustainability, and accountability, offered by Global Youth Leadership Center.
- Gained technical understanding of climate action strategies, sustainable development practices, and governance mechanisms.
- Applied learning to analyze challenges, propose solutions, and engage in youth-led sustainability initiatives.

2024

Engineering Project Management

- Completed an online course offered by Alison, enhancing knowledge of project management principles, sustainable development frameworks, and urban planning strategies.
- Developed skills in planning, execution, and monitoring of engineering projects aligned with sustainability objectives.
- Applied theoretical learning to analyze urban infrastructure challenges and propose sustainable solutions.

2024

Global Governance: Key Players, Challenges & Solutions

- Trained in international governance structures, policy-making processes, and solutions for sustainable development challenges.

● NETWORKS AND MEMBERSHIPS

2025 – CURRENT Asia Pacific Region

One Millions Leaders Asia - OMLAS Fellow

- Selected as 1 of 150 fellows from 2,991 applicants across 28 countries to participate in an intensive leadership and social impact program.
- Participated in workshops on adaptive leadership, strategic networking, and evidence-based decision-making.

- Mentored over 100 Champions during the Champions Empowerment phase, guiding them in leadership and sustainability initiatives.
- Developed advanced leadership, mentorship, and global collaboration skills, empowering youth and fostering scalable sustainability and social impact projects.

2025 – CURRENT International

The Green Institute - Green Fellow

- Selected as a fellow to engage in environmental sustainability initiatives, promoting awareness and implementing green projects.
- Participated in sustainability-focused workshops, research, and community projects; collaborated with local stakeholders to design and execute initiatives addressing climate and environmental challenges.
- Developed expertise in sustainable practices, contributed to impactful environmental projects, and fostered community awareness on sustainability and climate action.

2025 – CURRENT

American Society of Civil Engineers (ASCE) - Student Member

- Joined ASCE to stay updated with global civil engineering standards, research, and professional networks.
- Participated in technical webinars, workshops, and discussions on sustainable infrastructure, construction practices, and civil engineering innovations.
- Enhanced technical knowledge, professional networking, and awareness of international best practices in civil engineering and sustainability.

2024 – CURRENT Chitwan

Youth Thinker's Society - Chitwan Member

- Engaged with a youth-led platform focused on promoting civic engagement, sustainability awareness, and social innovation in Chitwan.
- Organized workshops, discussion forums, and community projects to empower youth with leadership, critical thinking, and problem-solving skills. Collaborated with local stakeholders, schools, and NGOs to implement initiatives.
- Enabled active participation of young people in social and environmental initiatives, fostering civic responsibility and leadership among community youth.

2021 – 2024 International

Hult Prize Foundations - Campus Director

- Organized and led the Hult Prize OnCampus program at the college, mentoring 15 student teams per cohort on projects addressing social and environmental challenges.
- Promoted student engagement and sustainable entrepreneurship initiatives in collaboration with faculty, sponsors, and external partners.
- Coordinated with Hult Prize Nepal, Central & South Asia, and International offices, ensuring alignment with regional and global standards.
- Represented the college at the Hult Prize Global Summit, Bangkok, showcasing campus projects and strengthening international networks.

2019 – 2021 Hiroshima, Japan

Hiroshima Junior International Forum - Ambassador

- Represented Nepal in an international forum focused on peace, nuclear disarmament, and global security education.
- Participated in international discussions, collaborated with peers from multiple countries, and promoted awareness on peace, global security, and sustainable development.
- Contributed to youth-led initiatives with measurable impact, strengthened cross-cultural collaboration, and enhanced leadership, diplomacy, and advocacy skills.

● CONFERENCES AND SEMINARS

2025 International

100 Country Summit

- Engaged with 1,600+ youth leaders from 105 countries across the Global South to develop the “Blueprint for a Better Future.”
- Collaborated with alumni, fellows, and champions OMLAS to drive global outreach, stakeholder engagement, and cross-cultural collaboration.
- Contributed to discussions and workshops focused on sustainable development, leadership, and youth-led solutions for regional and global challenges.

2025 Beijing

Youth led CSW69/ Beijing+30 Youth Briefing session

- Participated in an international session focused on gender equality and women’s empowerment.
- Gained insights into the Commission on the Status of Women (CSW) and global gender policies.
- Inspired to engage in initiatives promoting gender equality and youth-led advocacy.

2025 Brazil

Global Youth Climate Summit

- Participated in multilateral dialogue on climate resilience, sustainable energy systems, and biodiversity governance.
- Contributed to youth policy recommendations consolidated in the Belo Horizonte Youth Climate Declaration.
- Advanced understanding of international climate cooperation and youth-driven policy influence mechanisms.

2025

UNDRR–UNOSSC–PAHO Certified Training | Urban Health & DRR

- Trained in disaster risk governance, health emergency preparedness, and inclusive urban resilience.
- Applied global resilience assessment tools and South-South cooperation frameworks.
- Focused on technology-enabled and equity-centered disaster risk reduction strategies.

2024 New York City

International Youth Conference (IYC) 10

In collaboration with UNITAR, UNEP, IOM–UN Migration, UN-Habitat, AFS Intercultural Programs, and Tzu Chi

- Selected as a delegate to engage in high-level youth dialogue on global governance and sustainable development.
- Contributed perspectives on climate action, migration, urban resilience, and inclusive growth.
- Participated in multilateral discussions aligned with the UN’s “Summit of the Future” agenda.
- Collaborated with international youth leaders to propose innovative, youth-driven solutions to global challenges.

2024

Workshop on Voice Modulation and Body Language

- Actively engaged in intensive training focused on public speaking, persuasive communication, and leadership presence.
- Participated in structured speech exercises and impromptu speaking sessions to strengthen confidence and articulation.
- Networked with emerging youth leaders and professionals, fostering collaborative learning and professional connections.

2024

Youth Symposium on Child Rights and Mental Health

- Organized by G17 UAC Nepal in collaboration with Rotaract Club of Chitwan, Better Chitwan, Amnesty International, Himalayan MUN, and YTS-Chitwan
- Actively engaged in policy-oriented discussions focused on SDG 3 (Good Health and Well-being) and SDG 16 (Peace, Justice, and Strong Institutions).
- Contributed perspectives on youth leadership, civic responsibility, and institutional accountability in sustainable development.
- Collaborated with cross-organizational youth networks to explore community-driven solutions for health equity and governance challenges.

OCEM's International Conference on Green Technology and Talent Managemet

- Presented research at an international academic conference, contributing to technical discourse and knowledge exchange.
- Supported overall conference management, assisting in coordination of sessions and logistics.
- Welcomed and facilitated national and international delegates, ensuring professional representation and smooth engagement.
- Contributed to cross-cultural academic interaction and institutional visibility.

● SOCIAL AND POLITICAL ACTIVITIES

2025 Parengtar, Kalimpong

Threads of Change: Weaving Communities Through Youth Leadership in Sustainability

- Engaged in community-based youth leadership and sustainability initiatives, including workshops, cultural immersion, and festival preparation (Kholey Dai Festival).
- Collaborated with local youth to plan and implement activities promoting sustainability, cultural exchange, and community engagement.
- Developed competencies in teamwork, cross-cultural communication, and inclusive youth empowerment.

2022 Ratnagar Municipality

Youth Innovation Lab

- Collected and analyzed data for Ratnanagar Municipality in collaboration with ADPC and Sweden Sverige.
- Supported development of community-focused disaster risk mitigation strategies.
- Applied GIS, survey, and stakeholder engagement skills to strengthen urban resilience.

2017 – 2018 Narayangarh, Chitwan.

Nepal Junior Red Cross Circle

- Participated in community service and humanitarian initiatives focused on health, safety, and social welfare.
- Engaged in awareness campaigns, blood donation drives, and community support activities.
- Developed skills in teamwork, social responsibility, and community engagement.

2018 Bharatpur 10, Chitwan

Women Empowerment Programme

- Participated in workshops and training sessions focused on women's empowerment and skill development organized by Bharatpur Metropolitan Ward 10 in collaboration with Chitwan Human Resources Development Center..
- Engaged in program activities to understand community challenges and strategies for social inclusion.
- Gained insights into capacity-building, community engagement, and empowerment initiatives.

2014 – 2018 Bharatpur 10, Chitwan

Bal Club - Child Right Activist

- Actively participated in child-focused governance and social development initiatives, attending sessions of CFLG in Nagarsanjali (metropolitan-level children's group).
- Served as advisor for various Bal Clubs, contributing to child-friendly local governance initiatives.
- Represented children in Nagarik Ward Manch, promoting children voices in local decision-making.

● VOLUNTEERING

2025 – 2025 Nepal

Chitwan Model United Nations

- Tasked with organizing a national-level Model United Nations to foster diplomatic skills, critical thinking, and global awareness among students.
- Actively engaged in Delegate Affairs and Communication team, managing participant coordination, correspondence, and session logistics; facilitated smooth communication among delegates and committees.
- Successfully ensured seamless execution of the event, enhanced delegate engagement, and strengthened communication and organizational processes.

● ORGANISATIONAL SKILLS

2022 – 2025

President of CREARE "For Students, By Students"

- Cofounded and led a student-driven platform aimed at fostering talent, creativity, and collaboration among students across disciplines.
- Started as a e-newspaper, magazine aimed creativity, skills, and sustainability awareness, later developed to student co-learning group.
- Oversaw strategic planning, managed events, publications, and workshops; mentored student teams, coordinated with faculty and external partners, and facilitated platforms for knowledge sharing.
- Strengthened student engagement, promoted creative expression, and expanded the organization's reach and impact within the college community.

● MANAGEMENT AND LEADERSHIP SKILLS

2018 – 2020

Student Level Programme Coordinator

- Led initiative of organizing student activities to provide platforms for talent showcase and engagement across all +2 streams (Bio Science, Computer Science, Management, Hotel Management).
- Coordinated and executed events including quiz competitions, speech contests, poem recitations and so on.
- Managed logistics, participants, and inter-departmental teams effectively.
- Enabled students from diverse disciplines to showcase their skills, fostering inter-disciplinary collaboration while strengthening personal leadership, communication, and team management abilities.

2014 – 2018

School Captain

- Selected to lead the student body, represent peers, and support school administration in student-related initiatives.
- Coordinated student activities, maintained discipline, and organized events fostering academic, cultural, and sports participation. Mentored student leaders and supported peer engagement programs.
- Strengthened school community, enhanced student participation in co-curricular programs, and developed leadership, communication, and organizational skills.
- Awarded as Best Captain Award

● HONOURS AND AWARDS

2026

Dean's List Award – Pokhara University

- Recognized for outstanding academic performance and maintaining a high GPA (3.86) in Bachelor of Civil Engineering.

2025

Top Student of John Galt School – The Atlas Society

- Invited to Galt's Gulch, San Diego (USA) (fully funded), an international recognition platform based on Ayn Rand's philosophy, highlighting excellence, individual achievement, and intellectual engagement.

2024

Campus Director – Hult Prize Foundation

- Recognized for successfully organizing and leading the campus-level Hult Prize program and invited as Guest in Hult Prize Global Summit in Bangkok, Thailand, as an appreciation.

2023

Winner – Oxford College

- Speech competition, Public speaking
- Letter reciting competition
- Sports (Cricket, Football, Badminton, Table Tennis).
- Quiz Competition
- Oxford Tech Fest
- Best paper presenter in conference

2019

Ambassador – Hiroshima Prefecture, Japan

- Awarded as best delegate and assigned as Ambassador by Hiroshima Prefecture in Hiroshima Junior International Forum 2019.

2017

Student of the Year – Shanti Vidya Mandir English School

- Recognized for overall excellence in academics, leadership, extracurricular engagement, and contribution to college initiatives.

2018

Best Captain Award – Shanti Vidya Mandir English School

- Awarded for exceptional leadership, team management, and contribution to student activities as School Captain.

2016

Most Disciplined Student Award – Shanti Vidya Mandir English School

- Recognized for exemplary discipline, commitment, and consistency in academic and extracurricular activities.

● **HOBBIES AND INTERESTS**

Interest

- Leadership and global networking
- Communication and team collaboration
- Critical thinking and problem solving
- Project management
- Sustainability solutions.
